Outlook for 2007 Season

Coming off a very positive ’06 season that set many individual and team records, the Crusaders have very high expectations going into 2007. The combination of a strong returning core, along with the new tactical system and improved technical training begun in 2006, have the team ready to make major strides in both PAC play and a stepped up level of non-conference competition.

The coaching staff firmly believes the highly talented incoming freshman class will be the final ingredient to put us at the top. Expectations are for these rookies to contribute immediately to the squad’s success.

With finesse, speed, skill, and youth, the future of Alvernia Women’s Soccer is very bright. This will be an exciting and fun team to watch.
